Huston Veal

Huston Veal was born January 28, 1942, in Ringgold, Texas, to Harvey and Edora (Valentine) Veal and passed away, Saturday, May 6, 2023, at OU Medical Center in Oklahoma City, at the age of 81 years, 3 months and 8 days.

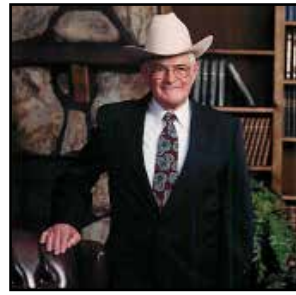

Huston was raised and attended school in Colony. He enlisted in the U.S. Army in 1958 and served for 2 years. Returning home, he married Donna Faye Brooks on September 15, 1960, in Colony where they made their home and in Weatherford. Together, they were blessed with two children: Monte and Shelly. As an adult, he was baptized and gave his life to serving Christ as his Savior. In 1976, they purchased the Eakly grocery store and made their home there. Huston was called into ministry, and he surrendered to preaching in the late 1980's. During this time, he preached in many churches in Caddo County. In 2004, Huston and Donna sold the grocery store and Huston had the opportunity to continue sharing his love for Christ and was called to pastor at Pleasant Valley Church and later as pastor at Swan Like Baptist Church for 12 years. Huston enjoyed spending time with his family and friends, travelling, watching sports, and being outdoors. He leaves a legacy of sharing Christ in his everyday life to make sure everyone had the opportunity to know Jesus.

The Cost of Discipleship

Jim Morrison

My mind has been distracted this week due to my wife's illness, so doing any creative thinking has been pretty difficult. So I will share some powerful material from a classic book, *The Cost of Discipleship* by Dietrich Bonhoeffer. Bonhoeffer was a German Theologian who was part of the Nazi resistance movement. He had a small part in an assassination attempt of Adolph Hitler. While not arrested for that effort, he was later implicated and executed by hanging before the Allies liberated the concentration camp. This book for which he is best known was written in 1937 but has been quoted and used in many sermons throughout the years.

He was offended by the shallow Christianity of the day and would be quick to repeat himself in today's world. The following material is quoted from his well-known book:

Cheap Grace is the preaching of forgiveness without requiring repentance, Baptism without church discipline, Communion without confession, absolution without personal confession. Cheap grace is grace without discipleship, grace without the cross, and grace without Jesus Christ, living and incarnate.

Costly grace is the treasure hidden in the field; for the sake of it a man will go and sell all that he has. It is the pearl of great price to buy which the merchant will sell all his goods. It is the kingly rule of Christ, for whose sake a man will pluck out the eye which causes him to stumble; it is the call of Jesus Christ at which the disciple leaves his nets and follows him.

Costly grace is costly because it calls us to follow, and it is grace because it calls us to follow Jesus Christ. It is costly because it costs a man his life, and it is grace that gives a man the only true life.

It is costly because it condemns sin, and grace because it justifies the sinner. Above all, it is costly because it costs God the life of his son.

The road to faith passes through obedience to the call of Jesus. Unless a definite step is demanded, it all vanishes into thin air, and if men imagine they can follow Jesus without taking this step, they are deluding themselves like fanatics. Only he who believes is obedient, and he who is obedient believes. Faith is only real when there is obedience, never without it, and faith only becomes faith in the act of obedience.

Perhaps the best known quote of Bonhoeffer is the statement, "When Christ calls a man, he bids them come and die."

You would be enriched if you can find the book *The Cost of Discipleship*. It will challenge and convict you, but will stimulate you to a life of discipleship.

Oklahoma History: The Man Who Invented the Modern Shopping Cart for His Family Business

from Oklahoma Hall of Fame Archives

Sylvan Goldman, born 1889 in Ardmore, OK, is credited as the inventor of the modern day shopping cart. He often modeled for his family business, for which he debuted his invention.

Chase Wright
Staff Writer

One of the unsung heroes of the modern era, the shopping cart has been a time (and back) saver for the shopper since its inception in 1937. Today, you'll find baskets strewn across parking lots, in front bays of stores, and in the hands of many customers as they browse around. It's hard to picture shopping without them, but their early years were a bit rocky.

Introduced on June 4th, 1937, in the Humpty Dumpty supermarket chain in Oklahoma City, the cart was receiving negative feedback. Men viewed the cart as "effeminate" and women felt as if they were pushing a baby stroller. People quickly began to see the appeal. Inventor Sylvan Nathan Goldman, the owner of the Humpty Dumpty chain, ended up hiring male and female models to push the carts around his stores to demonstrate their effectiveness, and he posted greeters at the front of the stores to explain their usage. They were soon in every store in the nation.

Goldman grew up around stores. Born in Oklahoma, Goldman helped his father in various dry food stores his mother's family owned. After serving in WWI, Goldman opened a fruit and produce store in Texas with his brother; they were very successful until the oil boom crashed. The pair moved to California, where they eventually planned to open a chain of whole food stores, but

their uncle offered them a chance to open the stores in Oklahoma instead - they agreed.

When they got to Oklahoma, they had fresh ideas for the new California stores called "supermarkets" and founded the state's first supermarket, The Sun Grocery Company, on April 3rd, 1920, in Tulsa. Within a year, they had 21 markets in the state; within three years, they had 57 stores. After buying the failing Humpty Dumpty chain, they merged their brands into the Standard-Humpty Dumpty. The first spark of the shopping cart was born to help women shoppers who had to handle the children and the groceries.

Basing the design on the foldable wooden chairs, he enlisted the help of mechanic Fred Young and built a metal frame with baskets and wheels. They hired another mechanic, Arthur Kosted, who invented an assembly line to mass-produce the baskets. For years the carts' popularity grew.

In 1946, another design for "nesting" carts was published by Orla Watson that allowed the carts to "nest" by showing them together instead of relying on disassembly like Goldman's carts. Goldman patented his "nest-kart" a year later but had to relinquish his rights for counterfeit damages. In return, Watson gave Goldman the right to mass-produce the carts. Today, telescoping carts form the basis of what we see in markets worldwide.

Clinton Music Series to Host Weekly Performances, Events Begin in June

Chad Gray
Staff Contributor

The Clinton Chamber of Commerce, in partnership with Scissortail Productions and the Levitt Foundation, is scheduled to present the 2023 Levitt Amp Clinton Music Series this summer with live musical performances every Friday evening at the historic amphitheater in McClain Roger's Park beginning June 2nd and concluding on August 4th.

The Levitt Amp Clinton Music Series will be open to the public and free of charge.

Scissortail Productions will be producing the musical events and curated a list of performers from various genres. They'll kick off the music series on June 2nd at 7 pm with musical performances by the electric-folk, world-rock duo HuDost, and Oklahoma's very own Mariachi Orgullo De America, which prides itself as the "premier mariachi of the Midwest." Classen High School of Arts Flamenco Dance Troupe will also perform that evening.

Other musical acts slated to perform in June as a part of the music series include guitarist Edgar Cruz on June 9th, Latin world fusion artists Incendio on June 16th, the folk music group Chatham Rabbit on June 23rd, and American artists Bob Wiles & Cowboy Jones on June 30th.

The music series was made possible through the Levitt Amp Grant awarded to Clinton this past fall because of coordination between the Clinton Chamber of Commerce and Scissortail Productions. Scissortail Productions is an Oklahoma-based non-profit organization "dedicated to enriching the cultural landscape of Oklahoma communities through performances and educational outreach programs," according to their website.
